Raised Mailbox Numbers

Creative Mailbox & Sign Designs has been providing decorative mailboxes and street signage for the various Westchase neighborhoods for more than 15 years. The master-planned Westchase community consists of 29 neighborhoods and encompasses over 2000 acres. Earlier this year, Creative Mailbox & Sign Designs provided new mailboxes for a few subdivisions in [The Bridges](#) including Wakesbridge, Sturbridge and Stockbridge.

Creative Mailbox & Sign Designs recently provided all new mailboxes for the homes in three of the subdivisions in [The Fords](#) neighborhood: Abbotsford, Chelmsford and Castleford. What makes the mailboxes in this community stand out is the raised numbering on the side of the box. Most communities have simple vinyl lettering on their mailboxes, but these neighborhoods preferred a different look. The numbers are chemically bonded to the box prior to the powder coating stage. Once powder coating is complete, the number faces are rolled with gold paint giving the box a very sophisticated appearance.

Featured Project

Decorative Street Signs for WaterGrass

[WaterGrass](#), located in Wesley Chapel, Florida, is a lushly landscaped single-family home community. The 998-acre property has 9 community parks and playgrounds as well as an exclusive community club featuring a resort-style pool, splash park, tennis courts, basketball courts, and more. Upon its completion, the WaterGrass property will total 7 individual neighborhoods and offer a wide selection of floor plans and pricing from Florida's top custom builders.

Creative Mailbox & Sign Designs was happy to work with [Crown Community Development](#) to provide street signage for the newest phase of development. CMSD replicated the existing decorative street signage in the community to ensure all signage throughout the WaterGrass property was consistent.

The WaterGrass street sign panels have reflective white overlay and green vinyl copy for increased visibility as well as a custom bracket. This project was unique due to the two different street sign designs. In addition to the decorative street signs, there were basic U-channel street signs installed on the main roads on the outskirts of the community because decorative street signs are only permitted inside the community.
