Marketing Signs

Forest Creek I Neal Communities
Sarasota, FL

For many years, home builders, commercial real estate firms and general contractors have used marketing signs to promote their properties and attract prospective home owners.

Free standing marketing signs for residential communities will usually include the name of the community, the builder, the price range and a sales phone number.

They are also used to promote limited offers such as a one month free rent campaign or act as community wayfinding to guide visitors to the leasing office or model units for showing purposes.

Creative Mailbox & Sign Designs has the ability to design marketing signs that fit your desired theme by incorporating your logo and custom graphics such as unit floor plans and community amenities.

Decorative Street Signage at Parkside

[Parkside](#), located in Dr. Phillips, Florida, just minutes away from Dr. Phillips Marketplace and "Restaurant Row", is [Meritage Homes](#)' newest development. The planned development will consist of three phases

and will have a total of 315 Mediterranean style single family homes upon its completion. Community amenities will include a swimming pool and walking and jogging trails.

There are four different floor plans in the development, starting at just over 2,750 sq.-ft. for the Madrid model to just over 5,000 sq.-ft. for the Barcelona. In early March, Meritage Homes hosted a pre-sales event for its new community. This was the first new construction lottery to take place over the past six years in the state of Florida. In just one weekend, Meritage Homes sold its first 20 home sites.

Creative Mailbox & Sign Designs was happy to work with Meritage Homes to design, fabricate and install decorative street signage for the new community. All of the street signs are part of our [Estate Collection](#) with mineral black poles and bases. The sign package included several stop signs and multiple miscellaneous, regulatory street signs.
